About

- I was originally born in Georgia, then moved to South Carolina. I am an alumna of North Augusta High School (Go Jackets!). I am excited and honored to represent this university that has given me so much. USC Aiken, for me, is my home away from home. Even though it is a small school, the impact USCA has on its students and community is anything but small. I feel that the mentors, professors, and friends I've made along the way have shaped me into the leader and person I am. Here, people treat you like a person and not just a number, which makes it a wonderful environment to thrive, grow, and succeed. My career goal is to become a teacher at my old elementary school, making it a full-circle experience. I plan to obtain my master's and eventually my doctorate.
